"FLU" GAINS FAST IN CHICAGO

Over 2,000 New Cases in Last 24 Hours—Whiskey Won't Cure Nor Prevent, Says Health Commissioner.

By Telegram to The Freeman.

Chicago, Jan. 24.—Despite the efforts of medical and health officials, Chicago's epidemic of combined "flu" and pneumonia has continued to increase rapidly until today authorities estimated that one person in every ten in the city is a victim.

Last figures from the health department showed 2,193 new cases of "flu" and pneumonia for the preceding 24 hours, with deaths totalling 134.

Complaints made in some quarters that the rapid spread of the epidemic was partly due to lack of whiskey as a preventive and curative were denied by Health Commissioner Robert S. Maclure.

"Whiskey will neither cure the disease or prevent it," he said.

"FLU" SPREADS IN DETROIT

By Telegram to The Freeman.

Detroit, Mich., Jan. 24.—The city board of health today announced that 760 new cases of influenza had been reported during the last 24 hours, bringing the total since Sunday to 1,523 cases.

All hospitals are rapidly becoming congested with the victims but the health authorities say they have the situation well in hand. The disease has not gained a foothold in the schools as yet, most of the cases coming from the manufacturing plants in the outlying districts of the city.

THREE NEW "FLU" CASES

Kingston now has nine cases of flu, three more having been reported Friday afternoon. There are also three cases of pneumonia in the city reported to the health board. Every precaution should be used to avoid contracting a cold. Those afflicted with a cold should muffle their noses in a handkerchief in order to protect the public.

Moriarty is said to have fled there with Mrs. Lucile Langley, divorced wife of the former mayor of an Idaho city.

BEACON MAN HELD AS RED

Believed to be John Reed, Famous Writer, Wanted in Chicago—Denies Charges of Anarchy.

Alleged to be a fugitive from justice, after having been indicted in Chicago on the charge of "criminal anarchy," for which a warrant has been issued, a man who the authorities arrested as John Reed, alias Harrison Ellerson, was taken into custody in Beacon Friday noon by Special Deputy Sheriff Elmer J. Conklin and taken to the county jail in Poughkeepsie pending the arrival of an officer from Chicago.

Investigation is being made to ascertain if the man is John Reed, the famous writer, or is connected in any way with him.

BIBLE SOCIETY ANNUAL MEETING

The annual meeting of the officers, directors and trustees of the Ulster County Bible Society was held at the Y. M. C. A. on Thursday evening, Jan. 23, at 8 o'clock. A bounteous supper was enjoyed by those in attendance. Mayor Canfield, the president of the society, presided. All of the other officers were present, being Frank R. Powley, vice president, A. D. There is an immediate need for the distribution of fifteen hundred Bibles to those in need of them and desiring them. At the present time the society is the only organization outside of the churches looking after the religious needs of the county, and is the only society carrying on religious work in those parts of the county destitute of churches and Sunday schools. The society is also performing important work in following up its religious census. The budget for the year was adopted and other important business transacted. Harry H. Flemming, Mayor Canfield, A. D. Rose and William F. Dedrick were appointed a finance committee.

STREET FORCE IS MADE HAPPY

Members of the street force were made happy when they received their weekly pay envelope. They had received a raise in pay of 25 cents a day. They were getting \$2.75 a day in 1919, but starting the first of the year this was increased to \$3 a day. Last summer they sent a petition for more pay to the board of public works, asking for a raise of 50 cents a day, but as the budget had been made up the first of the year the board was unable to comply with the request. This year arrangements were made in the budget to give the men more money.

APPLE KING WINS LAW SUIT

Frederick W. Vail, the apple king, won a law suit Thursday night in Milton-on-Hudson.

As became a royal fruit grower he drove a high powered car one night recently when returning from a tour of his orchards in Dutchess and Ulster counties.

The state police accused him of having violated the law in not having a proper light on his car and that he couldn't use a spotlight on the auto unless it had a legal lens.

Mr. Vail contended that the law says the light must be projected at a certain level, so many inches above the ground at so many feet distant and must not extend left of the car. He maintained that his light was absolutely correct.

Justice John B. Hall heard the case Thursday night. The squire is becoming celebrated in the fruit belt as the arbiter of disputes of all kinds.

The complainants withdrew the suit and apologized to Mr. Vail in public it was said.

ULSTER CLASSIS MEETS NEXT WEEK

Important Meeting to Be Held in the Church of the Comforter Wednesday—The Allotment in Five Years Progress Campaign is \$10,200.

On Wednesday January 28, there will be a very important meeting of the Reformed Churches of the Ulster Classis in the Church of the Comforter, beginning at 11 o'clock that morning.

The big item of business before the representatives of the churches in this vicinity will be the adoption of the financial quotas that will be assigned to the individual churches at this meeting in connection with the Five Years Progress Campaign.

Under the direction of this great forward movement in the Reformed denomination the churches in America are expected to raise a total budget of \$6,000,000 during the period of five years, for home and foreign missionary efforts, church extension, religious education, medical relief work and many other denominational enterprises. Of this large amount the Particular Synod of Albany will raise the sum of \$120,000 for the present year.

The allotment which falls to the churches of the Classis of Ulster for the present year will be \$10,200 distributed upon an equal percentage basis upon the various churches of the Classis. If this amount is to be raised it will bring the proportionate giving of the individual members to a much higher standard.

As a special feature of business, action will be taken on the extension of the Woodstock and New Hurley Reformed Churches.

COSTELLO WILL OPEN DISPENSARY

J. A. Costello & Company of No. 13 West Strand, who were wholesale liquor dealers before the 18th amendment to the constitution was adopted, are expecting within two weeks' time to open a dispensary at their store to handle liquors for medicinal purposes only.

Charles C. Ten Broeck, Wall street, stated that he did not intend applying for a license. Neither does the Dullis drug store on North Front street.

For the present the Kingston Central Pharmacy, corner Broadway and Thomas street, does not intend handling liquor. As to the future, they said, they had not given it consideration.

I. Ginzburg, lower Broadway, said that he had not fully decided upon the question, but did not think he would make application for a license. Mr. Ginzburg at one time had a state license, but then only handled pure alcohol.

Carl Weber of Weber's Pharmacy, Broadway, also does not intend applying for a liquor license. The Weber store held a retail liquor license at one time, but only handled pure alcohol. When medicated alcohol was put on the market they gave up this license.

One objection which a number of druggists have to the law is that in taking out a liquor license they are classed as retail liquor dealers, the same as saloons and hotel keepers.

KINGSTON IS INDEED BONE DRY

The Only Drug Store Authorized to Sell Liquor Can't Get It to Sell—Others May Secure Licenses—Doctors' Attitude.

There is at present but one drug store in town that has a license to handle whiskey on physicians' prescriptions and that store is unable to get any whiskey. There are also very few other druggists who expect to take out licenses when they fully understand the requirements or are sure that a supply will be available at all times.

The cost of the license does not seem excessive inasmuch as the two licenses possessed by the United Cigar Stores, which are the only ones in town, cost but \$25 and \$14 respectively and are good for a six month period.

There seems to be some sentiment among the doctors against writing prescriptions for whiskey at all because of the strict rules and red tape surrounding their issuance and the loss of prestige involved should the doctor be imposed upon or make a mistake. It is not expected, however, that the charges for prescriptions will be in excess of those for ordinary prescriptions but it is pretty sure a person will have to be really sick to get by both the doctor and drug store.

The attitudes of the several drug stores towards the license question are as follows:

Maben & Walker on central Broadway formerly carried whiskey for prescription purposes only, but have not secured a license this year. When questioned over the telephone today it was stated that they had not decided what they would do as yet.

At the Connolly Drug Company store on lower Broadway it was stated that they formerly held a license and handled whiskey for prescription purposes only. They have not renewed the license and as far as they know now do not expect to.

B. W. Johnston, the Strand druggist, said that he formerly carried whiskey for prescription purposes, but that he was on the fence and would not decide whether he would take out a license until matters became settled.

The telephone in Dr. Bongartz's drug store on Broadway was reported out of order by the telephone company, and it was impossible to get in touch with him over the phone.

William S. Eltinge, John street, has no intentions of taking out a federal license. The store has never handled liquor on prescription and Mr. Eltinge stated there would be no change in this policy.

William F. Dedrick, Wall street, stated that he also would not handle liquor. This store had a state license at one time to sell on prescription, but gave it up some time ago. Considering the cost of the license and the many technicalities and "red tape" Mr. Dedrick stated that a license would be more or less of a nuisance.

The McBride Drug Stores, Inc., do not and will not sell liquor. Charles McBride stated that he objects to turning his drug stores into rum shops. He said that in view of the fact that drug stores are liable for any errors made by physicians in filling prescriptions for liquor, he did not feel like bothering with it at all. From a monetary viewpoint, Mr. McBride claimed that when his stores did have a license several years ago, they did not sell enough to pay for the license. Unless there is a big demand for it, Mr. McBride said he would not take out a license.

Charles C. Ten Broeck, Wall street, stated that he did not intend applying for a license. Neither does the Dullis drug store on North Front street.

For the present the Kingston Central Pharmacy, corner Broadway and Thomas street, does not intend handling liquor. As to the future, they said, they had not given it consideration.

I. Ginzburg, lower Broadway, said that he had not fully decided upon the question, but did not think he would make application for a license. Mr. Ginzburg at one time had a state license, but then only handled pure alcohol.

Carl Weber of Weber's Pharmacy, Broadway, also does not intend applying for a liquor license. The Weber store held a retail liquor license at one time, but only handled pure alcohol. When medicated alcohol was put on the market they gave up this license.

One objection which a number of druggists have to the law is that in taking out a liquor license they are classed as retail liquor dealers, the same as saloons and hotel keepers.

He enlisted in the world war and for over a year saw considerable practice at Camp Lewis being of the Dental Corps.

POWHATAN'S PASSENGERS IN

Northern Pacific Also Brings 178 Listed Men—All Made Handcuffs Transfer in Wild Atlantic Sea—Powhatan, Waterlogged, Awaits Heavier Towing Gear.

By Telegram to The Freeman.

New York, Jan. 24.—The 271 passengers of the waterlogged transport Powhatan, including a number of women and children, who were rescued from their helpless ship in a storm at night, after facing the perils of the sea for five days and five nights, arrived here today upon the steamship Northern Pacific.

The Northern Pacific passed the Ambrose light at six o'clock and was scheduled to dock at pier number 3, Hoboken, at 9:30. Red Cross workers were at the dock with hot coffee and food and warm clothing for the refugees of the sea.

The Northern Pacific also brought one of the last contingents of the A. E. F. from France. Representatives of the Rocky Mountain Club went down the bay to greet the soldiers and to give all hands, sea fugitives and troops alike, a rousing welcome. Among those in the delegation were Governor Thomas E. Campbell, of Arizona, U. S. Senator John B. Kendrick, of Wyoming, and John Hays Hammond.

The transfer of the Powhatan's passengers was made in a heavy sea some 240 miles southeast of Halifax. The work began at six o'clock Thursday night under the glare of searchlights and was continued until 10 o'clock when all of the passengers were safely on board the Northern Pacific. It was a hazardous undertaking and two of the Northern Pacific's boats were smashed as they left her side, but the occupants were rescued.

The Powhatan is still in distress. At last reports she was being towed steadily toward Halifax, but radio calls were being sent out for further assistance. It was feared that the cable would break and Captain Randall wireless for heavier towing gear.

The Powhatan is in tow of the Canadian government steamship Ladislaus.

Among the passengers transferred from the Powhatan to the Northern Pacific and brought to port were: Lieutenant Colonel John M. Dunn and Mrs. Dunn, Washington, D. C.; Jane A. Warden and three children, John, Henry and Nancy, of McKinney, Texas; Lieutenant Commander Howard H. Crosby, Somerville, Mass.; Maud I. Foote and children, Felix and Robert, San Antonio, Texas; Margaret B. Shipp, Raleigh, N. C.; Ada B. Rodier and two children, Gilbert and William, Washington, D. C.; Gladys M. Smoke, Ashland, Ill.; Paul A. Flanders, Chicago; Fayette W. Alport and wife, Mildred, Cleveland, O.; Captain Oscar B. Hall, Gadsden, Ala.; Charles McKelvey, Cambridge, Mass.; Ella A. Austin and daughter, Margaret, Coblenz, Germany; Corporal James E. Thompson, Paynes Depot, Ky.

Also on board were 178 enlisted men taken from the Powhatan. They are attached to Camp Meade replacement unit number 28 under command of Captain William E. Shipp. There are also 67 members of the Graves registration unit.

The question is now, which community will win the banner this year? Several of them are running very close with the number of members turned in so far. The results so far are:

The local high school basketball team defeated the local Roscoe high school team at Norbury hall Friday evening by a score of 38 to 19. This was the third game between these two teams for the championship. This was a hard fought victory won by the Ellenville champions. Much credit is due the townspeople for the splendid support given the home team this year.

The ladies of the Foreign Missionary Society of the M. E. Church held an afternoon for all ladies of the church in the lecture room of the church Thursday afternoon from 4 to 5. A pleasing program as arranged including several musical selections was given and the ladies served refreshments which were enjoyed with a pleasant social intercourse and a silver offering was taken for the special work of the society.

Sunday next at both services at the M. E. Church will be observed Sunday school day. Appropriate sermons and singing. The theme of the pastor, Rev. Charles A. Dunn at the morning service will be "Character Building" and the theme for evening discourse, "Loyalty." The theme for the Epworth League meeting at 6:45 will be "The Charming China."

At Christ's Lutheran Church on Sunday the theme of the pastor's sermon in the morning will be "The Resurrection." Theme for the vesper at 7:30 o'clock, "King Solomon's Fall and Restoration." TROLLEY CARS RAN ALL NIGHT

To Keep Trolley System Open for Traffic Today—Considerable Trouble With Ice Rail Friday Evening, But No Accidents.

The hail and sleet storm that enveloped the city Friday evening made considerable trouble for the Kingston Consolidated Railroad and that night the company kept both snow plows and two trolley cars running all night to keep the tracks open.

The worst trouble with icy rails was experienced between 7 and 8 o'clock that evening, when ice formed on the tracks and the car wheels were unable to secure a good grip on the rails. Two Colonial Division cars got beyond control of the motorman on the way down the Hasbrouck avenue hill, but fortunately the motorman did not lose their heads and were able to get their cars under control before the foot of the hill was reached.

To add to the difficulty of the situation one of the trolley wires broke on Hasbrouck avenue, near DuBois street.

Each division of the trolley road has a hard hill to contend with when storms like that of Friday night break, the Broadway hill and the Hasbrouck avenue hill. With the use of the snow plows and plenty of sand, the trolley road kept running as close to schedule time as possible.

HOLY CROSS CHURCH.

First Service Held 24 Years Ago Tomorrow.

Sunday being the Feast of the Conversion of St. Paul the Apostle, the dedication of Holy Cross Church, the festival will take on a peculiar significance in that parish. Many Kingston people will recall that it was on that day twenty-eight years ago that the first service was held in the present church building, the Rev. Father J. O. S. Huntington, O. H. C., being the preacher on that occasion.

The devotees of Holy Cross Church will meet in the rectory at Holy Cross Church at 1:30 p. m.

The Scout Section (Survey Committee) of the Nation Wide Campaign in Holy Cross Church will visit the home of every member of the parish tomorrow afternoon, between the hours of two and four o'clock. Each family in the parish has been asked to have a responsible member remain at home to receive them.

The Liaison Section (Prayer Groups) of the Nation Wide Campaign will meet Sunday evening in the church. Some three hundred members of Holy Cross have been drafted into this phase of the campaign. On the 10th of the Sunday evenings during the campaign these groups will meet in the homes of their respective members. Father Mabry will tell the groups how they are to function in the first meeting.

The Intelligence Section (Publicity Committee) will put out the first edition of their paper, Highways and Byways, described as a journal devoted to saints and sinners, on Monday.

At The Y. M. C. A.

Three Basketball Games and Gymnastics Tonight.

A very interesting program of games and athletics is planned for tonight at the Y. M. C. A. Three basketball games and a fancy apparatus exhibition will be the program.

The games to be played will be between the Emerald A. C. and the fast "Tritons" aggregation. Then comes the regular games of the City Y. M. C. A. Basketball League; the Olympics versus the Trojans; and the Romans versus the Athenians.

A very interesting exhibition of special gymnastic work will be given by the T. V. V. Troupe of Brooklyn. These young men, now working in Kingston have been exhibiting for some time; such a performance has not been seen in Kingston for some time.

The first game starts at 7:45 p. m.

Central-Emeralds Monday.

At last the fans will have a chance to see "the great" Central-Emeralds game which will be staged at Rosendale on Monday evening, January 26. This game will be a hummer as it is said there is a big purse at stake. Both teams are practicing hard and expect to be in the pink of condition.

Firemen's Committee Meets.

There will be an important meeting of the general committee in charge of the coming H. V. V. F. A. at the Central Fire Station Sunday afternoon at 2:30 o'clock, and all members are urged to attend.

LEONARD MONTAGNA

To Be Attended By Other Post Delegates—Rehearsal Tomorrow.

A rehearsal of the minstrels being arranged for by Kingston Post, No. 150, of the American Legion, under the direction of Harry Malsenholder and Thomas Dolan will be held Sunday afternoon at 2 o'clock at the armory. All are asked to be there as measurements for the costumes will be taken at that time.

Forty soldiers and nurses are in the cast and this number includes the best local talent Kingston possesses. Tickets are \$1.00 which includes the war tax, while they may be had for 50c in the gallery where no seats are reserved. Tickets may be exchanged for reserved seats on Saturday, February 7, box office opening at 9 a. m., and on the 9th and 10th, the days of the minstrels.

Letters have been received from the various Legion Posts in the county stating that they will send delegations. County Chairman Tuckerman of Milton will be on hand with a large representation from Dahlgreen Post, No. 123, of Milton, N. Y. Company M of the New York Guard vote at its meeting Thursday night to purchase a ticket for each member of the guard and attend the minstrels in a body.

Mrs. Archibald McNeil

Among the early arrivals at Palm Beach was Mrs. Archibald McNeil of New York and Bridgeport, who is shown here testing the beach rowing machine at the famous resort. Before her marriage Mrs. McNeil was Miss Anna Orr, a prima donna. Mr. McNeil served as an ensign in the navy during the war.

Shah of Persia Superstitious.

The young shah of Persia has nearly 200 mascots, most of them heirlooms which have played some part in the history of his predecessors, an exchange states. Chief among these is a cube of amber which, according to Eastern lore, fell from heaven in Mohammed's time. It is supposed to ward off danger, and the shah usually wears it round his neck. Another famous mascot is the gold star which is said to have the power of making criminals confess. Perhaps the quaintest charm that the shah carries is a little box of gold set in emeralds and dating from the days of the prophet, who is said to have blessed it. It is believed to have the power of rendering members of the Persian royal family invisible so long as they are celebratory, but it is not on record whether any shahs have put its powers in this respect to the test.

Moulting Time for Moose.

Moose drop their antlers from December 15 to January 15, as a rule, though a few aged ones may retain these ornaments until February. Old hunters say that they could go out in the woods to certain spots favored by the moose at horn-shedding time, and pick up a bayonet of fine antlers in a forenoon 50 years ago, though they have not been so plentiful of late. The moose antlers will keep for an indefinite period when housed and removed from moisture, but they fall to pieces very fast when left in the woods. Those shed in the winter remain firm until spring, but as soon as warm weather arrives a small borer gets into them and reduces them to a fine powder in a few weeks. Though thousands of antlers are dropped in the forests every winter, few hunters ever find one the next summer.

Miss Rose Gade

The high office of "Queen of the Lemons" in the Annual Orange Show of San Bernardino, Cal., has been accepted by Miss Rose Gade, of that city. Miss Gade has also been nominated Southern California's "Sweet the Lynx" girl. An official "lynx" sweater was believed to be absolutely essential in view of the fact that the Annual Orange Show opens on Friday, February 13.

Magnesium and Aluminum.

Magnesium and aluminum are much alike in many respects and quite different in others. Magnesium is one-third lighter than aluminum, and at the same time denser, harder and tougher. Atmospheric influence is about the same on magnesium and aluminum; but, while alkalies such as ammonia or soda, attack aluminum considerably, magnesium is not affected as much. Magnesium is worked into objects having sharp edges, screws, etc., more readily and with better results. It takes a high polish, is readily hammered and rolled, and can be swaged or pressed like tin into any shape.

First Platinum Ingot.

The first veritable platinum ingot was made by a French chemist, Cabaneau, in 1783. Charles III of Spain had called him to Madrid and created a special chair of mineralogy, physics and chemistry for him. In his laboratory he found the secret of rendering the new metal malleable, and this is the way he revealed the fact to one of his patrons: "Three months later, at the home of the count of Aranda, there appeared upon a table an ingot some 10 centimeters cube (about four inches), with a beautiful metallic luster; it was malleable platinum."

Ancient Greek Writing.

Athenaeus says that when the ancient Gauls worshiped they turned to the right, imitating the apparent motion of the heavens. This is confirmed by Pliny, and instructions to this effect have been found in the classical works of Plautus and Homer. When the Greeks first learned the art of writing they adopted the alternate system, in imitation of the ox plowing a field, though the practice may have had its origin in the dances of the priests of Apollo who danced before the altars.

Queen of Rumania distributing American dollars

The long pompous parades of gold-braided officials and smartly uniformed soldiery which in the old days occurred frequently in the Balkan states, have been replaced by long soup and bread lines of ragged, destitute peasants. This photograph illustrates the change in the old order. Queen Marie, of Rumania, is shown distributing American clothing and food to the peasants at a Red Cross station near Domnesti. One poor youngster is practically naked, which fact emphasizes the needs of the Balkan people.

LAW AS TO COLOR BLINDNESS

Does Not Mean Loss of Sight, According to Ruling Made by Georgia Superior Court.

Color blindness does not mean total loss of sight in the meaning of the law, it was held recently by Judge John T. Pendleton in the motion division of Superior court at Atlanta, Ga.

Judge Pendleton's decision cleared a legal point raised only once before in the United States, so far as is shown by court records. This was in Nebraska, where both the lower court and the State Supreme court held that color blindness means total blindness.

The question was raised in a suit brought by George L. Fallin, who was a locomotive engineer for the Atlanta Joint Terminals, against the Locomotive Engineer Mutual Insurance and Accident association, a branch of the Brotherhood of Locomotive Engineers.

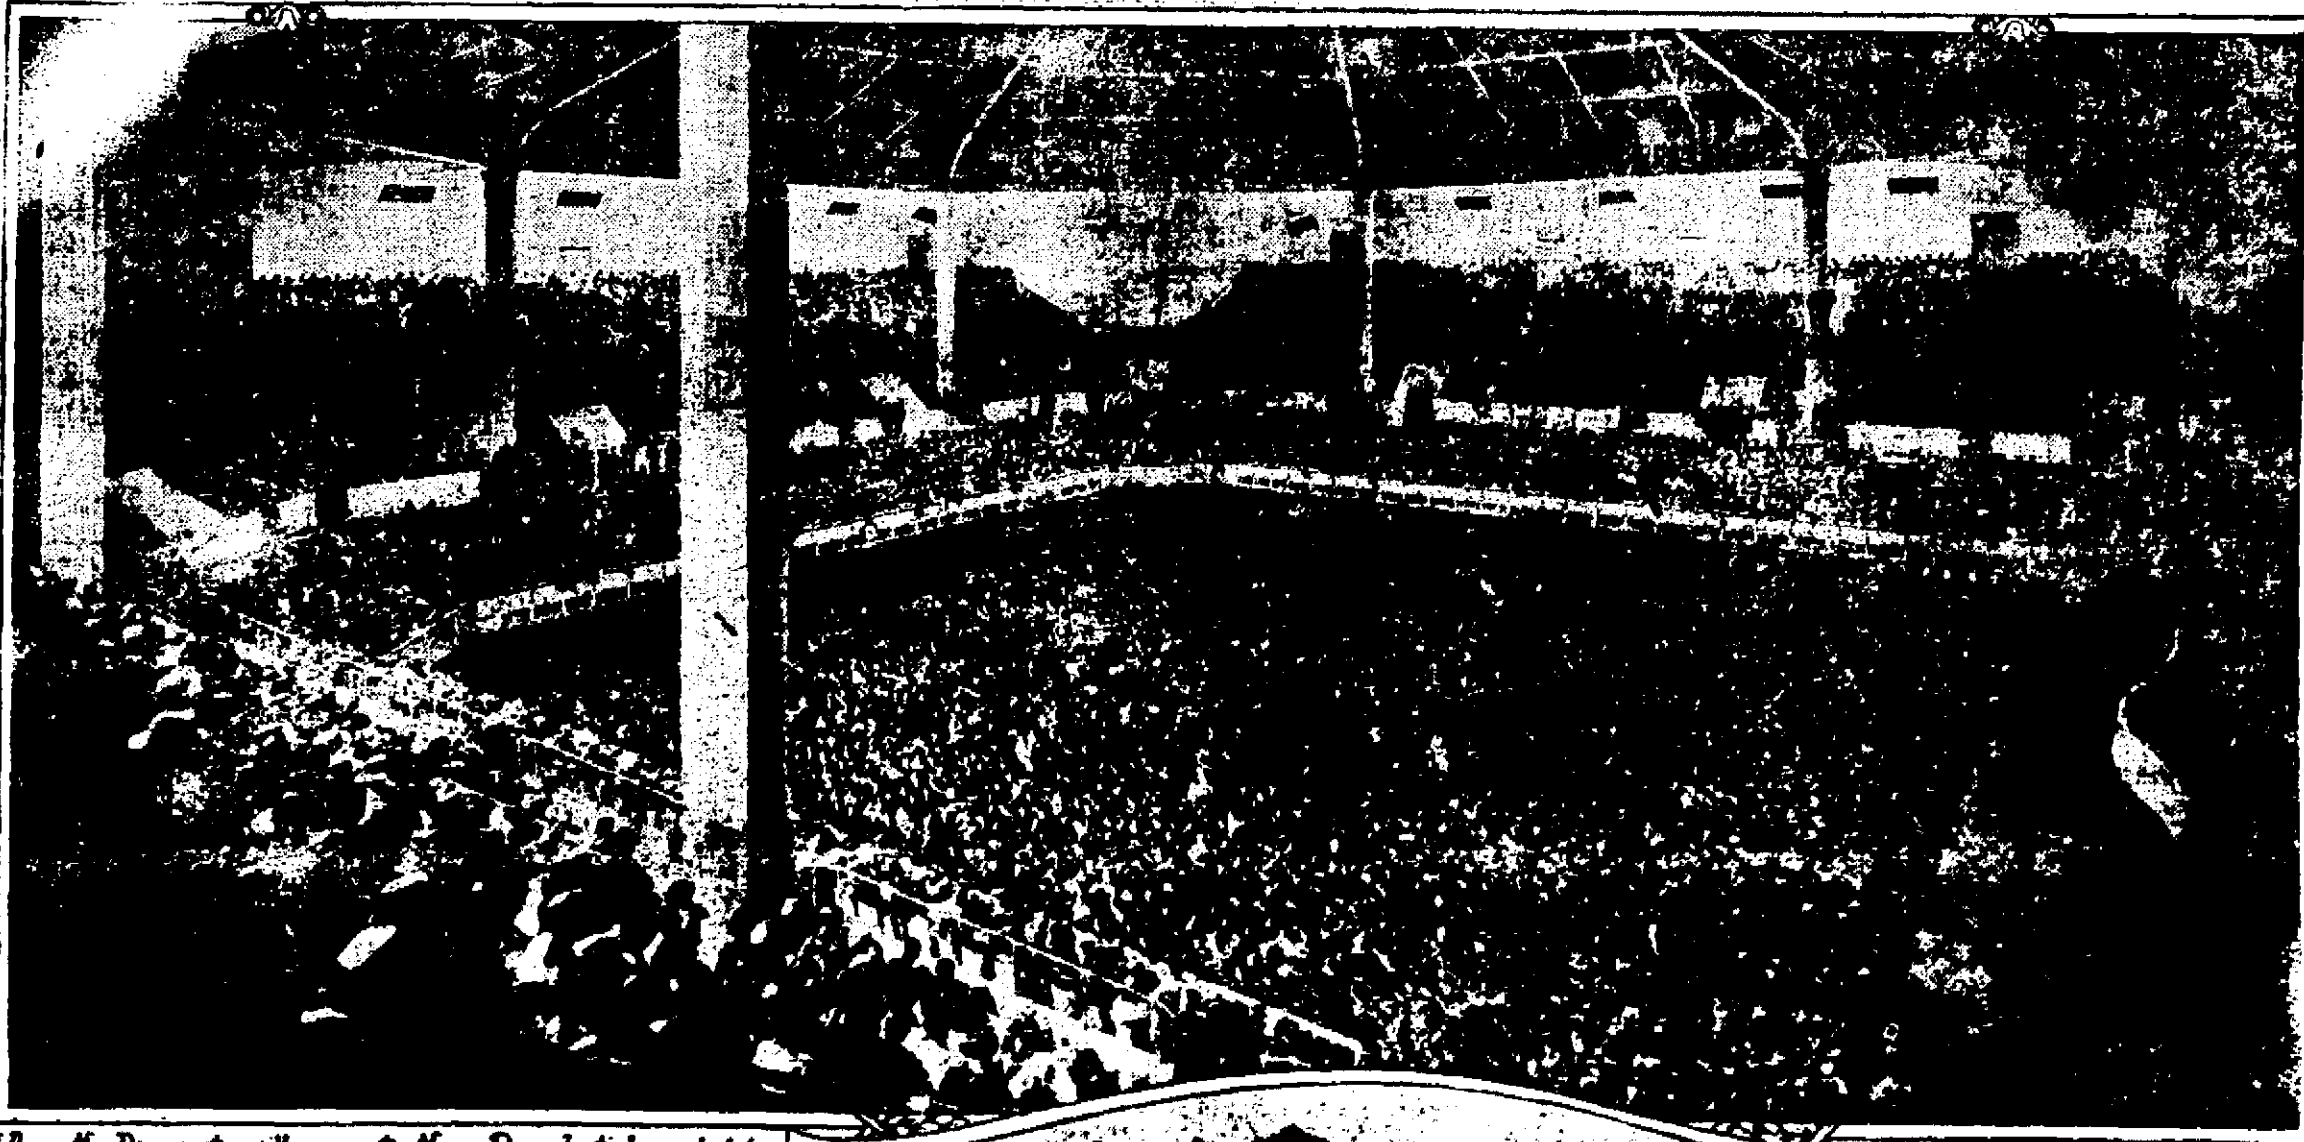

Engineer Fallin, it was set out, became color blind while engaged in his line of duty and was discharged from his position. He then applied to the engineers' association for his insurance—\$1,500—for the loss of his eyesight, as stipulated in the policy. The association, however, declined to pay the amount on the ground that color blindness did not come within the terms of the policy concerning blindness. Fallin then brought suit in the courts through his counsel, City Attorney James L. Mayson.

Electricity in Pathology.

There is much yet to be learned about the pathological effects of electricity, though a step toward better understanding was made during the World war. In the use of charged fences, it was found that the applied 1,000 volts might be fatal in some instances, and without serious action in others. Preparedness for shock often caused the results to be harmless, while unexpected exposure gave fatal effects. Experiments confirmed this. In other experiments differences were shown by different currents, a direct current producing simple shock, an alternating current giving rise to epileptic symptoms. Victims of shock are often only apparently dead, promptly applied artificial respiration bringing complete recovery.

"Cravat" Really "Croat."

Cravat is another word for one we are hearing often these days. Cravat means Jugo-Slav. It is a corruption of the word Croatia. During the reign of Louis XIV the French copied from the Croatian soldiers of the royal Croatian regiment a scarf which they wore around their necks. It was something new to the French and they took to it readily with the result that cravats became quite popular. At first they were made of muslin and linen and had broad edges of lace, but they, too, have changed and present-day batwings and four-in-hands are developments which weren't thought of in those days.

Where the Democrats will nominate their Presidential candidate

For the first time in history a Democratic National Convention will be held on the Pacific Coast. The Democratic National Convention, when that party names its choice for the Presidency of the United States, when the platform upon which it will battle for election next November is adopted, will, as it never had before, set the scene of its action on the Pacific Coast, San Francisco in preparation for an influx of 50,000 visitors during convention week, starting June 28. In the great Civic Auditorium, where the convention is to be held, 12,500 people can be seated normally. The great hall on the occasion of President Wilson's visit during his tour in behalf of the League of Nations held 15,000 people. There are thirty separate committee rooms in the building, more than sufficient, it is said to accommodate those committees that will report back to the convention after having mapped out the program to be voted upon. The Civic Auditorium, it is said, is estimated in seating capacity by other structures of the kind in the United States. These are Madison Square Garden, New York, and the Auditorium in Chicago. The balcony of the auditorium in Princeton will seat 4,914 persons, besides furnishing standing room for an additional 2,500. On the main floor the seating capacity is gauged largely by the size of the speakers' platform. The largest photograph shows an interior view of the great auditorium and gives an idea of the seating arrangements. The smaller photograph shows an exterior view of the auditorium.

The Auditorium, San Francisco, California

Companions. On the benches and seats where I have so long enjoyed the woodsy of nature, I have never been, I can honestly say, alone; because when no one was with me, I had companions to every bee and flower and pebble; and never did, because I could not pass a swamp, or a tuft of heather, without finding in it a tale of which I could but decipher here and there a line or two, and yet found them more interesting than all the books ever read, which were ever written on earth.—Kilgus.

WILLITEING AND OTHER MATTERS

Discussed at Meeting of Board of Public Works—Partial Elimination of Railroad Crossing on Foxhall Avenue—Grade Street Grade—Getting Ready for Summer Work.

Following the regular monthly meeting of the board of public works Friday afternoon the board held a conference with W. W. Medill of the Willite Company, and a program of paving various city streets with Willite was discussed. The board contemplates laying considerable Willite this spring and fall if the Willite Company make the city what the board considers a reasonable price. The board is anxious to lay Willite on top of the brick pavement on Broadway this summer if possible. As an outcome of the conference with Mr. Medill the board will take action one way or the other at a later session.

A Partial Elimination.

Mayor Canfield at the regular session called attention to the fact that the public service commission was considering the partial elimination of the West Shore crossing at Foxhall Avenue, where Cornell street intersects. At this point it is necessary for those using the streets at that point to cross the tracks twice.

The railroad company had sent the mayor a blue print outlining a proposed scheme for a partial elimination. In brief it called for the building of a new street from Cornell street connecting with Manor Avenue, and running in front of the lace mills. In other words it would be an extension of Cornell street to Manor Avenue. The new street would be a short one, and would eliminate the necessity of crossing the tracks twice.

Order Road Oil.

The board decided to place an order with the Standard Oil Company for coal patch and road oil to be used in construction work this spring and summer. The board will use about the same amount as last year.

The K. P. Fleet.

John Q. Smith, Kingston Point Park superintendent, made a report as to the fleet of row boats at the park. He said that several of the boats were not worth repairing, and that to repair others would cost from \$25 to \$30. There are fifteen boats in the park fleet. The board after some discussion left the matter with power with Mr. Smith and Superintendent Van Keuren.

Weed Killer And Streets.

The board places an order for ten barrels of weed killer at \$5 per barrel. This is used by the street force to kill weeds in the streets.

The Kingston Gas & Electric Company applied for permission to open the street in front of the old autoplant for the purpose of installing gas service to the Apollo Company, who have taken over part of the plant. The request was granted. The Gas Company was also given permission to open the street at No. 9 DuBois street, to install gas service.

The same permission was granted to open Ravine street to furnish gas service to the John Egan property, and to open the street at 239 Catherine street to repair a gas main.

Signs And Tanks.

Edward Cashin, the auto accessory dealer, was given permission to install a gasoline tank in front of his store at No. 45 East Strand, subject to the usual conditions of the board.

The request of Louis Aduchesky to place a sign in front of his place of business at 79 Crown street, was granted subject to the usual conditions.

Permission was granted the state income tax office in the Weiner building at Broadway and Dederick street, to place a wooden sign on the Dederick street entrance, under the usual conditions.

Common Council Resolutions.

Alderman Warren's resolution that the board furnish two safe skating ponds in the city was referred to the park committee. The board already has a skating pond in Forsyth Park.

Alderman Martin's resolution to place an arc light on Lucas Avenue in front of Forsyth Park, was referred to the lighting committee.

Alderman Myers's resolution to place an arc light at the head of Oak street on Henry street, and a light on Fair street, between St. James and Franklin streets, was also referred to the lighting committee.

Alderman Schick's resolution that the trolley road pass between the tracks on Hasbrouck Avenue, between Newkirk and Delaware Avenues, was referred to the street committee.

Alderman Martin's resolution that the chief of police notify property owners at northwest corner of Green and Main streets, to relay sidewalk, was held over.

Main Street Question.

At a recent meeting of the board a petition was received from the residents of Main street asking that the street be graded and placed in shape. The petition had been referred to City Engineer Cadogan. He reported that an ordinance had been passed establishing the grade in December of 1914, and that the cost of grading the street between Clinton Avenue and East Chester street would be \$2,752.50. This did not include the cost of cutting and curbing or paving the street. The board referred the matter back to the city engineer to prepare an estimate of the entire cost.

To Light Willow.

The board decided to place an incandescent light on Davin street, between Willow Avenue and Adel street, and also an incandescent light on Oxford street.

Several routine matters were discussed and then the board went into conference with Mr. Medill of the Willite Company.

ST. PETER'S MINISTREL.

Second Performance of Minstrel by St. Peter's Glee Club.

Out of justice to those who were prevented from attending by the inclement weather of last Monday evening, and in response to a general request, The Novelty Minstrel by the Glee Club of St. Peter's will be repeated Monday evening January 26th.

Instead of proving a hindrance the stormy weather was rather providential since the hall was crowded to its capacity even before curtain time. Had not the weather acted as a check the hall would have been uncomfortably jammed. Since the "First Night" was such an unusual success and the assurance of a first class entertainment and dance is assured it is expected that Monday evening will see as the third delighted audience an equally large crowd. An added feature to the program will be a duet by Kathleen Dugan and Frank Bailey.

As previously announced Shuter's orchestra will supply lively dance music. Refreshments carefully prepared and served by the members of Christian Mothers and Children of Mary Societies will be in small measure add to the enjoyment and comfort of those who attend. All in all there's a good time of the stamp St. Peter's always gives to her patrons.

Ira Hasbrouck Catches Trout.

The following article appears in one of the Florida papers in regard to Kingston folks who are spending the winter there. "Fishing from the bridge across the Halifax river is proving highly popular just now with the guests at the Hotel Ormond. On Friday Ira Hasbrouck who is here with Mr. and Mrs. Robert S. Rodie of Kingston, N. Y., landed the best catch so far he brought in six blue sea trout, the largest of which weighed some seven pounds."

CENTRALS AND ST. PETERS WON

As was expected, the games Friday evening in the Colonial Basketball League were very fast. On account of the bad weather the crowd was not so large, but those present made up in enthusiasm.

Centrals and Pioneers first half—Moxham started with a field, followed by Hughes. Gregory, Hughes and Kiernan scored in succession. Gregory made another. Hornbeck made a field. Rourke made a foul and field. Half ended 15-4 for Centrals.

Kaseys and St. Peter's first half—Dittus started with a field. Beichert made good a foul and followed with a field. Pallis relieved Duncan, who was ill. Ruzzo made good a foul. Murphy made good a foul. Thurin made good a foul. Culliton got a field. Dittus a field. Ruzzo dropped in three fields in less than a minute. Dittmar replaced Koenig. Murphy made good a foul. Half ended 11-10 for Kaseys.

Centrals and Pioneers second half—Hornbeck made a field. Rourke got a field. W. Dittus dropped in a field. Kiernan made a field. Moxham got a field. Hornbeck got another field. Game ended 25-10 in favor of Centrals.

Kaseys and St. Peter's second half—Beichert scored a field after seven minutes of play making the score 12-11 for St. Peter's. Ruzzo made good a foul tying the score. Dittmar made a field. Murphy got a field, again tying the score, with four minutes to play. Murphy scored another field. Beichert dropped in a field. Score tied with a minute and a half to play. Game ended a tie and five minutes extra had to be played. Beichert made good a foul and followed with a field. Game ended 19-18 in favor of St. Peter's.

This was without a doubt the best game played thus far in the league and there have been some great games.

Matty Clarke was again on the job and handled the whistle like a big leaguer.
